

Emery Davis

Architecture

I am a professional architect who has been involved in the industry for more than 7 years. My specialties are in the area of interior and exterior design, architecture and arts, the implementation of physics study in architecture design, and city planning.

EXPERIENCE

2013 - 2016

Freelance Architect

- While continuing my post-graduate program at the university, I worked as a freelancer in some companies. My biggest contribution at that time was to a small company namely Rimberio Co.

2016 - Now

Rimberio Co

- After gaining experience as a freelancer, I tried my fortune to apply for a job in an architecture company as a junior architect. I gained many experiences there, particularly in interior and exterior design and city planning. Only around 2 years after my acceptance, I was promoted to the co-leader of my team.
- My team and I have won several architecture competitions and gained some awards.
